Professional Expertise

Concentrating on tenant representation and corporate services, Barry Murphy works with some of America's largest companies and has successfully closed over 120 transactions within the past two years valued in excess of \$150 million. He is a selected member of Cushman & Wakefield's National clean Energy and Technology specialty practice group. He assists his energy-related clients by leveraging many years of experience successfully negotiating real estate transactions unique to natural gas E&P and service related companies throughout the United States.
